

## **Side by Side Barrel Racing is CANCELLED**

Due to concerns issued from the festival's insurance provider, we have agreed to cancel this motorsport event. We will work with them to create a logistics and safety plan that will make this event possible in the coming years. None of the other events at this year's festival are impacted, and we look forward to ways to bring innovative events with broad participation and appeal to our guests in the future. Please come out and enjoy the car show and all the other outstanding aspects of Nevada's longest running agriculture based celebration.
